PROGRAM

Master of Science in Accounting

The University of Louisiana at Lafayette is committed to providing clear and accurate information to current and prospective students to help inform career planning. The UL Lafayette program identified above prepares students to practice in a field with professional licensure or certification available. However, specific licensure and certification requirements can and often do vary by state. Requirements typically include earning a degree or other educational credential in the field from an institution and program that meet certain eligibility requirements in that state (e.g., curricular requirements, accredited status, approval by the state licensing board); passing a state or national exam; working in the field for a minimum period of time; and/or completing a certain number of clinical hours. If your career plans include pursuing professional licensure or certification in your chosen field, it is important to become educated on the credentialing requirements of the state in which you hope to practice.
